

Ideation document – Betting experts web application

Presented by Mario Petkov, S2-CB-08

This document contains information about the tipsters web application that will be developed in the coming weeks. The application will provide the possibility for our users to see everyday predictions from our tipsters. Provided with analyze by our specialists, every tip will have final prediction for some sports game. Along with that, our customers will be able to see our tipsters success rate and decide if to believe in the concrete tipster's predictions.
